RAMRAO ADIK INSTITUTE OF TECHNOLOGY

Affiliated to University of Mumbai • Approved by AICTE, New Delhi & DTE, Maharashtra

Ranked 198th in NRIF, 2020 by MHRD, New Delhi

LETTER OF RECOMMENDATION

I am very pleased to recommend Miss Pranjali Thakur, as an eminent student for the graduate Program to your esteemed University. Pranjali has been my student for more than 3 years now. I have taught her Micro-controller Application (MCA) and Internet Of Things (IoT) in this period.

I was particularly impressed with the sincerity and methodical work that Pranjali had put into learning. She has been working with a tremendous amount of perseverance and dedication, which I rate as one of the most important characteristics a student should possess. Her enthusiasm to know more about recent technologies helped her to overcome any limitations. She has also attended workshops and seminars on IoT, Matlab and LabVIEW.

An intelligent and a hardworking student, Pranjali was always inquisitive about the topics being taught in class. She has always been keen to learn and understand new things. She has completed projects title "Water Level Indicator" for monitoring the level of water in a container. For her final year project "Simultaneous localization and mapping (SLAM) for autonomous navigation using ROS" she has worked with different controllers like Tiva-C LaunchPad and Arduino in which she applied everything taught in class perfectly.

Pranjali has always done things passionately and puts in efforts to gain knowledge in each and every area of her life, whether in learning, or relating to her fellow students and her teachers. Along with this, she has always shown immense alacrity for volunteering and managing cultural events held in college.

I have no doubt that she will be a serious and enthusiastic student and contribute heavily to your institution. I truly support his admission to your institute and hope that you consider her for this program.

Sincerely,

Prof. Shilpa H. Achaliya (M. E.)
Assistant Professor – Department of Electronics Engineering
